To the graduating class of 2005,

After a long four years, high school is finally coming to an end. Some of us spent these years working hard, constantly preparing for college. Others used the time as one last party before the responsibilities of adulthood set in. For those who did the former, congratulations on your hard work. As for the rest of us, the end of high school is the closing of years of mindless, irresponsible bliss. Never again will we be given effortless assignments that provide for forty percent of our grade. Or be given a schedule for the next ten months of four lives. So why are we eagerly anticipating leaving? Could it be natural instinct or is it maturity that makes us want to leave the thing that is dismissing us? We have been nestled in the security of the Novato Unified School District for thirteen years, but now we are being projected into the openness of society. For some of us this means college, others this means a year of soul searching or work. Whatever your plans are for after high school I hope that what compels you to flee our humble school is the desire for something greater.

This year at the *Pony Express* we tried our best to provide you the news and views of San Marin. We owe much of our success to our dedicated staff and our advisor, Ms. Shine. While we won't miss the weekends spent completing the paper, we will miss being an active part of the San Marin community. And of course, we'll miss Michael Cusack. Without his expertise, the *Pony Express* would be handwritten photocopies. We hope that this paper has been enjoyable and we wish you the best of luck in the future.

Sincerely,
Denise Nilan Paige Lehman

Valedictorian Lauren Schwarze

A class valedictorian is someone who is honored for his or her top academic achievement. This person must not only have the best grades but also the most demanding class schedule. Lauren Schwarze meets these criteria, but with her calm demeanor and pleasant personality she is anything but the average high school valedictorian.

Lauren has an array of activities and achievements under her belt. She is a four-year veteran of the Girls Varsity Golf Team, Key Club (during which she served as both secretary and president), and CSF (eventually becoming senior class representative). She has been involved in concert band, musical theater and Link Crew. Languages were also her forte; she took Spanish for two years, and is currently finishing her fourth year of French. She says it is her French 4 class that she will miss the most after high school. "Lauren is the only person in French 4 who knows what she is doing," says friend Sarah Davis.

Outside of school, she is active in her church. She took part in two house-building mission trips to Mexico with her church and currently serves on their youth leadership committee. In addition, she helps with the middle school youth group. She lists her hobbies as running, skiing, and reading, and is also teaching herself German.

Her future plans include attending Washington University in St. Louis as international business major. Lauren hopes to live abroad and work in international banking. She wants her future job to include lots of travel, especially to Europe. Her commitment to learning languages and academics make her a prime candidate for such a job, and it is almost certain that high school valedictorian is just the first step of many future successes.

Salutatorian Lara Palanjian

Well-rounded is an understatement when it comes to describing Lara Palanjian. Acting, public speaking, internships, academics, and school clubs: Lara has done much in her four years at San Marin. But what is truly remarkable about Lara is her ability to pursue her interests, resulting in great accomplishments.

Lara is active in music and drama, both at school and in various other productions. One of her favorite theatrical roles was that of Ginya in the play "Nine Armenians" with Golden Thread Productions at the Magic Theater in San Francisco. Proud of her Armenian heritage, she attends conferences for Armenian youth, and wrote and directed a children's play for a Bay Area Armenian banquet. Here at San Marin, you may have seen her as Eliza Doolittle in "My Fair Lady" or as Kate in this year's "Kiss Me Kate". With her total number of drama and musical theater productions at 18, it is not surprising that she is considering a career as a singer or an actress- that is if she doesn't become a lawyer or a politician first.

Politics and law are subjects that Lara is both passionate and knowledgeable about. Besides holding down positions as president of CSF and vice president of the Alpha Omega Club, Lara created the Real Politik club, a club for students interested in politics and political debate. Always eager to expand her knowledge of law and how it works, Lara interned with Fireman's Fund Insurance Company legal department. She has taken two legal career courses at College of Marin- very admirable considering her rigorous course load at San Marin.

But her high school experience was not all about academics and extracurricular activities. Her favorite memories include giving the daily announcements, bringing funky purses to school, and getting "dramatic" in class. Next year she will attend UC Berkeley, to begin working her way up to her ultimate goal of being appointed a U.S. Supreme Court Justice. With the dedication and diversification she has shown at San Marin, anything she aims for is entirely within possibility.

Marin Athletes of the Year Carli O'Leary & Jeff Baum

Standing at (an arguable) five foot one, **Carli O'Leary**, has grown into quiet an athletic and academic standout. She has been a member of San Marin's Cross Country and Track teams her entire high school career and has also been a member of the honor roll. This year O'Leary was ranked 7th in her favorite race, the 800, which she has trained for all four years. O'Leary's dedication to her schoolwork and running has granted her an amazing honor titling her the Marin County Athlete of the Year. The modest scholar athlete only has words of gratitude and appreciation in regards to her honor and gives congratulations to Jeff Baum.

Jeff Baum's high school accomplishments just may be too many to count. Besides from being on the honor roll since he was a freshman, Baum has been a member of San Marin's basketball and track teams for four years. Baum has played an essential roll on both teams, and why is this you might ask? His hops. Baum has captured the title as the number one high jumper in MCAL and NCS. Baum jumped an amazing six feet four inches and one quarter at NCS, grabbing him the new San Marin school record. "As soon as I started working out for track last summer, my goal was to beat the school record," stated Baum.
